सामान्य निर्देश

1. यह प्रश्न पत्र पांच खंडों में विभाजित है- खंड ए, बी, सी, डी और इ ।
2. सभी प्रश्न अनिवार्य हैं।
3. . खंड-ए: प्रश्न संख्या 1 से 5 अति लघुउत्तरीय प्रकार के प्रश्न हैं, जिनमें से प्रत्येक के 2 अंक हैं। प्रत्येक प्रश्न का उत्तर 40 शब्दों से अधिक नहीं होना चाहिए ।
4. खंड-बी: प्रश्न संख्या 6 से 8 लघुउत्तरीय प्रश्न हैं, जिनमें से प्रत्येक के 3 अंक हैं। प्रत्येक प्रश्न का उत्तर 80 शब्दों से अधिक नहीं होना चाहिए ।
5. खंड-सी: प्रश्न संख्या 9 और 10 दीर्घ उत्तरीय प्रश्न हैं, जिनमें से प्रत्येक के 5 अंक हैं। प्रत्येक प्रश्न का उत्तर 120 शब्दों से अधिक नहीं होना चाहिए ।
6. खंड-डी: प्रश्न संख्या 11 और 12 केस आधारित प्रश्न हैं। जिनमें से प्रत्येक के 4 अंक हैं।
7. खंड-ई: प्रश्न संख्या 13 और 14 मानचित्र आधारित प्रश्न है।
8. प्रश्न पत्र में कोई समग्र विकल्प नहीं है। हालांकि , कुछ प्रश्नों में आंतरिक विकल्प प्रदान किया गया है।
9. ऐसे प्रश्नों में से केवल एक विकल्प का प्रयास करना है। इसके अलावा जहाँ आवश्यक हो, प्रत्येक अनुभाग और प्रश्न के साथ अलग-अलग निर्देश दिए गए हैं।

General Instructions:

1. This Question paper is divided into five sections-Section A, B, C, D and E.
2. All questions are compulsory.
3. Section-A: Question no. 1 to 5 are very short answer type questions of 2 marks each. Answer to each question should not exceed 40 words.
4. Section-B: Question no. 6 to 8 are short answer type questions, carrying 3 marks each. Answer to each question should not exceed 80 words.
5. Section-C: Question no. 9 and 10 are long answer type questions, carrying 5 marks each. Answer to each question should not exceed 120 words.
6. Section-D: Question no. 11 and 12 are Case Based questions, carrying 4 marks each.
7. Section –E Question no 13 and 14 are map based questions.
8. There is no overall choice in question paper however internal choice has been provided in few questions. Only one of the choice in such questions have to be attempted .
9. In addition to this separate instructions are given with each section and questions wherever necessary.

Very Short Answer Type (02 Mark each)

| QNo | Questions | Marks |
|-----|--|-------|
| 1 | <p>रूस में ग्रींस तथा हवाईट्स कौन थे? Who were the 'greens' and 'whites' in Russia?</p> <p align="center">Or</p> <p>रूस में 'खूनी रविवार' की घटना क्या थी? What was the "Bloody Sunday" incidence in Russia?</p> | (2) |
| 2 | <p>पश्चिमी विक्षोभ की दो विशेषताएँ लिखिए? State two characteristics of the Western Disturbances?</p> | (2) |

SESSION ENDING EXAMINATION 2021- 22
CLASS - IX
SUBJECT - SOCIAL STUDIES

FULL MARKS: 40

TIME: 2 HOURS

| Very Short Answer Type (02 Mark each) | | |
|--|--|--------------|
| Q. No | Questions | Marks |
| 1 | <p>They were the group of people who were against the Bolshevik Revolution. They started a civil war. They were supported by the French, American, British and the Japanese troops as these countries were worried about the growth of socialism in Russia.</p> <p style="text-align: center;">Or</p> <p>Up to 200 people were killed by rifle fire and Cossack charges. This event became known as Bloody Sunday and is seen as one of the key causes of the 1905 Revolution. The aftermath brought about a short-lived revolution in which the Tsar lost control of large areas of Russia.</p> | (2) |
| 2 | <ul style="list-style-type: none">● These originate over the east Mediterranean sea.● These cause rain in North India | (2) |
| 3 | <p>Natural vegetation refers to a plant community, which has grown naturally without human aid and has been left undisturbed by humans for a long time.</p> | (2) |
| 4 | <p>This card is given to every person on the voter's list. The voters are required to carry, this card when they go out to vote, so that no one can vote for someone else.</p> | (2) |
| 5 | <p>In India, the concept of Poverty line is used as a measure of absolute poverty. So BPL (Below Poverty Line) is a line which demarcate the people, who are living below the poverty from those, who are living above the poverty line.</p> | (2) |
| Short Answer Type (03 Marks each) | | |
| 6 | <p>Liberals : One of the groups which looked to change society were the liberals.</p> | (3) |

| | | |
|---|---|-----|
| | <p>Political and Social Views of Liberals :</p> <ul style="list-style-type: none"> ● Liberals wanted a nation which tolerated all religions. ● Liberals also opposed the uncontrolled power of dynastic rulers. They wanted to safeguard the rights of individuals against governments. ● They argued for a representative, elected parliamentary government, subject to laws interpreted by a well-trained judiciary that was independent of rulers and officials. ● However, they were not ‘democrats’. They did not believe in universal adult franchise, that is, the right of every citizen to vote. They felt men of property mainly should have the vote. ● They also did not want the vote for women. | |
| 7 | <p>Election Commission takes decisions on every aspect of conduct and control of election. It implements code of conduct. It orders the government to follow the guidelines, to prevent use and misuse of governmental power to enhance its win elections, or to transfer some government officials. If Election Commission feels unfairness in polling, it orders a re-poll.</p> <p style="text-align: center;">Or</p> <p>Challenges to free and fair elections</p> <p>The challenges to free and fair elections in India include:</p> <ol style="list-style-type: none"> (i) Money power of candidates and political parties (ii) Criminal elements entering the political fray (iii) Family politics (iv) Similarity of parties in policies and practice (v) Disadvantages of smaller parties and independent candidates. | (3) |
| 8 | <ul style="list-style-type: none"> ● States with poverty ratio more than the national average: Orissa, Bihar, Assam, Tripura and Uttar Pradesh are the most poverty ridden states of India. The poverty ratio in these states is much higher than the national average. Orissa and Bihar are the poorest states with poverty ratio of 47 and 43 respectively. Most of these states are facing rural as well as urban poverty. ● States with poverty ratio less than the national average: Recent studies show that in 20 states and union territories, the poverty ratio is less than the national average. There has been a significant decline in poverty ratio in Kerala, Andhra Pradesh, Tamil Nadu, Gujarat and West Bengal. ● States with low poverty ratio: States like Punjab, Haryana, Goa, Himachal Pradesh and Jammu Kashmir have very low | (3) |

| | | |
|---|--|------------|
| | percentage of population living below the poverty line. | |
| 9 | <ul style="list-style-type: none"> ● 1. survival of the fittest ● 2. through the concept of evolution and natural selection ● 3. The geopolitical concept of Lebensraum, or living space | |
| 10 | <ul style="list-style-type: none"> ● 1. The windward side of the Western Ghats ● 2. Southern range of the Khasi ● 3. The area which are located lee ward side of monsoon winds and they receive a very little amount of rainfall. | |
| Long Answer Type (05 Marks each) | | |
| 11 | <ul style="list-style-type: none"> ● Original Jurisdiction : The original jurisdiction extends to those cases which the Supreme Court has the authority to hear and decide in the first instance. <ul style="list-style-type: none"> ● Between citizens of the country; ● Between citizens and government; ● Between two or more state governments; and ● Between governments at the union and state level. ● Appellate Jurisdiction: It is the highest court of appeal in civil and criminal cases. It can hear appeals against the decisions of the High Courts. ● Advisory Jurisdiction : As the highest court in the country, the Supreme Court gives legal advice to the President of India on any legal or constitutional matter referred to it. However, the advice is not binding on the Supreme Court. ● Guardian of the Constitution: The Supreme Court acts as the guardian and final interpreter of the Constitution. If the government passes any law or issues any order which is in violation of the Constitution, the Supreme Court has the power to declare the law or order unconstitutional. ● Guardian of Fundamental Rights: The Supreme Court also acts as a guardian of the fundamental rights of the citizens. When a fundamental right of any citizen is violated by the government or any individual he can seek the protection of the Supreme Court. | (5) |

o remove poverty government has adopted two approaches:

- **Indirect approach:** This covers achieving high economic growth rate, promotion of small scale industry, promotion of agriculture. This approach is also referred as trickle down effect. It was assumed that the development of industry and agriculture would create employment opportunities and income, which would lead to rapid economic development.
- **Direct approach:** Under direct approach government has launched various poverty alleviation programmes and food schemes to target the poor directly.

The government has launched various poverty alleviation schemes to control poverty.

(i) National Rural Employment Guarantee Act (NREGA) 2005: It was passed in September 2005. The Act provides 100 days assured employment every year to every rural household in 200 districts. Later, the scheme will be extended to 600 districts. One-third of the proposed jobs would be reserved for women. The central government will also establish National Employment Guarantee Funds. Similarly, state governments will establish State Employment Guarantee Funds for the implementation of the scheme. Under the programme, if an applicant is not provided employment within fifteen days, he/she will be entitled to a daily unemployment allowance.

(ii) National Food for Work Programme (NFWP): It was launched in 2004 in 150 most backward districts of the country. The programme is open to all rural poor, who are in need of wage employment, and desire to do manual unskilled work. It is implemented as a 100 per cent centrally sponsored scheme, and food grains are provided free of cost to the states. Once the NREGA is in force, the NFWP will be subsumed within this programme.

(iii) The Prime Minister Rozgar Yojana (PMRY): It was started in 1993. The aim of the programme is to create self-employment opportunities for the educated unemployed youth in rural areas and small towns. They are helped in setting up small business and industries.

(iv) Rural Employment Generation Programme (REGP): It was launched in 1995. The aim of the programme is to create self-employment opportunities in rural areas and small towns. A target for creating 25 lakh new jobs has been set for the programme under the Tenth Five Year Plan.

SAMPLE QUESTION PAPER

Class - IX

SCIENCE (086)

TERM II (2021-22)

Max. Marks:40

Time allowed: 2 hours

General Instructions:

- i) All questions are compulsory.
- ii) The question paper has three sections and 15 questions. All questions are compulsory.
- iii) Section–A has 7 questions of 2 marks each; Section–B has 6 questions of 3 marks each; and Section–C has 2 case based questions of 4 marks each.
- iv) Internal choices have been provided in some questions. A student has to attempt only one of the alternatives in such questions.

SECTION A

1. The atomic number of three elements A, B and C are 9, 10 and 13 respectively. Which of them will form a cation?
2. Compute the number of ions present in 5.85 g of sodium chloride.
3. a) Write the correct representation of an element 'X' which contains 15 electrons and sixteen neutrons.
b) In the atom of an element X, 6 electrons are present in the outermost shell. If it acquires noble gas configuration by accepting requisite number of electrons, then what would be the charge on the ion so formed?
4. An element 'Z' forms the following compound when it reacts with hydrogen, chlorine, oxygen and phosphorous.
 ZH_3 , ZCl_3 , Z_2O_3 and ZP
(a) What is the valency of element 'Z'?
(b) Element 'Z' is metal or non-metal?
5. a) Define one Joule of work?
b) A force of 7 N acts on an object. The displacement is, say 8 m, in the direction of the force. Let us take it that the force acts on the object through the displacement. What is the work done in this case?

OR

Calculate the kinetic energy of a car of mass 500kg moving with a velocity of 36km/h. Find the kinetic energy if the velocity of car doubles?

6. What is an antibiotic? Give two examples

OR

Why are we normally advised to take bland and nourishing food when we are sick?

7. Name any three diseases transmitted through vectors.

OR

Differentiate between infectious and non-infectious diseases with example.

SECTION B

8. a) If $Z=7$, what would be the valency of the element? Name the element.

b) Write the molecular formulae for the following compounds:

- (a) Copper (II) bromide
- (b) Aluminium (III) nitrate
- (c) Calcium (II) phosphate

9. Calculate the molecular mass of the following:

- (a) H_2CO_3
- (b) $\text{C}_2\text{H}_5\text{OH}$
- (c) MgSO_4

OR

Calculate the atomicity of the following.

- (a) F_2
- (b) NO_2
- (c) CO_2^{-3}
- (d) C_2H_6
- (e) CO
- (f) H_2O_2

10. a) An object thrown at a certain angle to the ground moves in a curved path and falls back to the ground. The initial and the final points of the path of the object lie on the same horizontal line. What is the work done by the force of gravity on the object?

b) Can a body possess energy even if it is not in motion?

11. Calculate the electricity bill amount for a month of 31 days, if the following devices are used as specified:

- (a) 3 bulbs of 40 W for 6 hours.
- (b) 4 tube lights of 50 W for 8 hours,
- (c) A TV of 120 W for 6 hours.

Given the rate of electricity is Rs 2.50 per unit.

OR

- (a) What is meant by mechanical energy? State its two forms. State the law of conservation of energy. Give an example in which we observe a continuous change of one form of energy into another and vice-versa.
- (b) Calculate the amount of work required to stop a car of 1000 kg moving with a speed of 72 km h^{-1} .
12. An object is thrown vertically upwards and rises to a height of 10m.
- a) Calculate the velocity with which object is thrown upwards.
- b) The time taken by the object to reach the highest point.
13. A ball is dropped from a height of 20m., at the same instant another ball is thrown up from the ground with a speed of 20m/s. When and where the balls meet?

SECTION – C

This section has 02 case-based questions (14 and 15). Each case is followed by 03 sub-questions (a, b and c). Parts a and b are compulsory. However, an internal choice has been provided in part c.

14. Soumya and Raunak are very excited to perform experiments in the chemistry laboratory. Soumya took 5 moles of carbon atoms in a container and Raunak also took 5 moles of sodium atoms in another container of same weight.
- (a) Whose container is heavier?
- (b) Whose container has more number of atoms
- (c) How many molecules are present in 9g of water?

OR

A flask contains 4.4g of CO_2 gas. How many moles of CO_2 gas does it contain.?

15. Tapan a 15 years old boy and his parents were afraid of getting vaccine against COVID. Their family doctor told them that getting vaccinated could save your life. COVID-19 vaccines provide strong protection against serious illness, hospitalization and death. There is also some evidence that being vaccinated will make it less likely that you will pass the virus on to others, which means your decision to get the vaccine also protects those around you. Even after getting vaccinated, keep taking precautions to protect yourself, family, friends and anyone else you may come into contact with.
- a) What is immunisation?
- b) What do you mean by disease symptoms? Explain giving two examples.
- c) What precautions will you take to justify “prevention is better than cure.”

OR

Why are antibiotics not effective for viral disease?

| | | |
|-----------|--|---|
| 6 | In a cricket match, a batswoman hits a boundary 6 times out of 30 balls she plays. Find the probability that she did not hit a boundary. | 2 |
| SECTION-B | | |
| 7 | Give possible expressions for the length and breadth of the following rectangle in which its area is given: Area: $35y^2+13y-12$ | 3 |
| 8 | Factorise : $27y^3+125z^3$ OR Factorise : $125X^3-27Y^3$ | 3 |
| 9 | A right circular cylinder just encloses a sphere of radius r (see Fig). Find (i) Surface area of the sphere,  (ii) Curved surface area of the cylinder (iii) Ratio of the areas obtained in (i) and (ii) | 3 |
| 10 | Construct a triangle ABC in which $BC=7\text{cm}$, $\angle B=75^\circ$ and $AB+AC=13\text{cm}$ | 3 |
| SECTION-C | | |
| 11 | ABCD is a trapezium in which $AB \parallel DC$, BD is a diagonal and E is the mid-point of AD. A line is drawn through E parallel to AB intersecting BC at F (see Fig). Show that F is the mid-point of BC.  | 4 |
| 12 | Prove that equal chords of a circle (or of congruent circles) are equidistant from the centre (or centers) OR Prove that equal chords of a circle subtend equal angles at the centre. | 4 |

13

Radhika's mother gave her some money to buy Papaya from the market at the rate of $p(x) = x^2 - 12x - 220$ per kg.

- (i) Find the factors of the given polynomial.
- (ii) if she purchase 5kg papaya, what money she have to pay?

2

2

14

A farmer has a water tank for cows in the shape of a cylinder with radius of 1.4 m and height of 2 m. The tank comes equipped with a sensor to alert the farmer to fill it up when the water falls to 20% capacity.

- (i) Find the curve surface area of tank
- (i) What is the volume of the tank when the sensor turns on?
(use $\pi = \frac{22}{7}$)

नोट—

- कोष्ठक में प्रश्न संख्या और कोष्ठक के बाहर अंक दिये गये हैं।
- प्रश्न नम्बर 4 से किसी एक विषय पर दिए गये संकेत बिन्दुओं के आधार पर लगभग 150 शब्दों में अनुच्छेद लेखन।
- प्रश्न नम्बर 5 में औपचारिक तथा अनौपचारिक विषयों में से किसी एक विषय पर पत्र लेखन।
- प्रश्न नम्बर 6 में किन्ही दो स्थितियों पर 40 शब्दों में संवाद लेखन। (विकल्प सहित)
- प्रश्न नम्बर 7 में किसी एक विषय पर 120 शब्दों में लघु कथा लेखन। (विकल्प सहित)

केन्द्रीय विद्यालय संगठन वाराणसी संभाग
सत्रांत-परीक्षा 2021-22

कक्षा - 9
विषय- हिंदी
(नमूना प्रश्न-पत्र)

निर्धारित समय - 2 घंटे

अधिकतम अंक - 40

सामान्य निर्देश:-

1. इस प्रश्न पत्र में 2 खण्ड है- खण्ड क और ख।
2. सभी प्रश्न अनिवार्य हैं, यथासंभव सभी प्रश्नों के उत्तर क्रमानुसार ही लिखिए।
3. लेखन कार्य में स्वच्छता का विशेष ध्यान रखिए।
4. खण्ड क में कुल 3 प्रश्न है। दिए गए निर्देशों का पालन करते हुए इनके उपप्रश्नों के उत्तर दीजिए।
5. खण्ड -ख में कुल चार प्रश्न है, आवश्यकतानुसार प्रश्नों के साथ विकल्प भी दिए गए हैं। निर्देशानुसार विकल्प का ध्यान रखते हुए चारों प्रश्नों के उत्तर दीजिए।

खण्ड-क (पाठ्य पुस्तक व पूरक पाठ्यपुस्तक)

प्रश्न- 1 निम्नलिखित प्रश्नों के उत्तर संक्षेप में लिखिए-

(2×4=8)

क- किस घटना ने सलीम अली के जीवन की दिशा को बदल दिया और उन्हें पक्षी प्रेमी बना दिया?

ख- सांवले सपनों की याद पाठ , सालिम अली की पर्यावरण के प्रति चिंता को भी व्यक्त करता है।

पर्यावरण को बचाने के लिए आप कैसे योगदान दे सकते हैं? उसे अपने शब्दों में लिखिए।

ग- 'प्रेमचंद के फटे जूते ,पाठ में टीले शब्द का प्रयोग किन संदर्भों को इंगित करने के लिए किया गया है?

घ- "तुम पर्दे का महत्व नहीं जानते, हम पर्दे पर कुर्बान हो रहे हैं। इस पंक्ति में निहित व्यंग्य स्पष्ट कीजिए।

प्रश्न -2 निम्नलिखित प्रश्नों के उत्तर संक्षेप में लिखिए-

(2×3=6)

क- 'कैदी और कोकिला 'कविता के आधार पर पराधीन भारत की जेलों में दी जाने वाली यंत्रणाओं का वर्णन कीजिए।

ख- "देख विषमता तेरी -मेरी" पंक्ति के माध्यम से , कवि कैदी और कोकिला कविता में किस विषमता की ओर संकेत किया है?

ग-बच्चों का काम पर जाना एक बड़े हादसे के समान है, क्यों?

प्रश्न-3 निम्नलिखित प्रश्नों के उत्तर लिखिए-

(3×2=6)

क- 'शिक्षा बच्चों का जन्मसिद्ध अधिकार है'- इस दिशा में लेखिका मृदुला गर्ग के प्रयासों का उल्लेख कीजिए।

ख- समाज में महिलाओं को उचित गरिमा दिलाने हेतु आप कौन-कौन से प्रयास कर सकते हैं? उसे अपने शब्दों में लिखिए।

खण्ड -ख (रचनात्मक लेखन)

प्रश्न-4 निम्नलिखित में से किसी एक विषय पर दिए गए संकेत बिंदु के आधार पर लगभग 150 शब्दों में अनुच्छेद लिखिए -
(1×5=5)

क- बेरोजगारी की समस्या

संकेत बिंदु-

- * बेरोजगारी की भयावह स्थिति
- * बेरोजगारी के कारण
- * निवारण

ख- कोविड-19 एक वैश्विक महामारी है

संकेत बिंदु-

- * शुरुआत
- * प्रभाव
- * लक्षण
- * उपाय

ग- जीवन में व्यायाम का महत्व

संकेत बिंदु-

- * शारीरिक स्वास्थ्य आवश्यक
- * व्यायाम के लाभ
- * मन पर अनुकूल प्रभाव

प्रश्न- 5 निबंध प्रतियोगिता में प्रथम आने पर अपने छोटे भाई को बधाई देते हुए एक पत्र लिखिए। (5)

अथवा

अपने क्षेत्र की टूटी-फूटी सड़कों को पुनः बनवाने का आग्रह करते हुए नगर -निगम के उपायुक्त को पत्र लिखिए।

प्रश्न- 6 निम्नलिखित स्थितियों में से किन्हीं दो पर लगभग 40 शब्दों में संवाद लिखिए (2x2.5=5)

क- कोरोना महामारी में जनता की लापरवाही पर दो मित्रों में हुई बातचीत को संवाद के रूप में लिखिए।

ख- पुस्तक विक्रेता की दुकान पर किताबें खरीदने आए छात्रा और दुकानदार के बीच हुई बातचीत को संवाद के रूप में लिखिए।

ग- ऑनलाइन कक्षा पर दो विद्यार्थियों के बीच हुई बातचीत को संवाद के रूप में लिखिए।

प्रश्न -7 निम्नलिखित में से किसी एक विषय पर लगभग 120 शब्दों में लघुकथा लिखिए- (5)

(क) ऑनलाइन शिक्षा का महत्व

(ख) जैसी करनी वैसी भरनी

KENDRIYA VIDYALAYA SAGHATHAN, VARANASI REGION

SESSION ENDING EXAMINATION (2021-22)

SAMPLE QUESTION PAPER

Sub.: ENGLISH – Language and Literature

CLASS-IX

Time allowed: 2 Hrs.

Maximum Marks: 40

General Instructions:

1. The Question Paper contains THREE sections-READING, WRITING & GRAMMAR and LITERATURE.
2. Attempt questions based on specific instructions for each part.

SECTION A- READING (10 marks)

Q1-Read the passage given below:

Su means number and Duko means single. The game of Sudoku has many similarities with the game of life. Sudoku is a puzzle game designed for a single player much like crossword puzzle. The puzzle itself is nothing more than grid of little boxes called cells”. They are stacked nine high and nine wide making 81 cells in total.

The roots of the Sudoku puzzle are in Switzerland. Leonhard Euler created çarre latin in the 18th century which is similar to a Sudoku puzzle. The first real Sudoku was published in 1979 and was invented by Howard Garns, an American architect. The real world wide popularity started in Japan in 1986 where it was published and given the name Sudoku by Nikoli.

In life, too you start with a given set of notions and then work from there on. In Sudoku, you need to follow a set of rules to build up the grid, filling each row, column and box with numbers ranging from one to nine, so much like in life where you have to go on your way without hurting anyone else. Respect every number (person) and things would be fine.

While playing, you never think of the end (the result) you just keep working on the numbers and the final result (fruits of action) comes on its own. Extremely difficult puzzles may take hours. Similarly, to achieve the desired results in life, may also take years. The game of Sudoku and the game of life are best played in calm but in a focused state.

Everything has to go together in a Sudoku grid the rows, columns and squares. Exactly as in life your duties towards your family, teachers, society and country, all go on simultaneously in Sudoku the arrangement of the given numbers is symmetrical. This is instructive in life, on how to maintain steadfast faith, poise and equanimity despite situations when everything turns topsy-turvy.

There is a subtle difference between the two, as well. Make a mistake and you can erase it and begin all over again in Sudoku. Not so in life you can learn a lesson through it and avoid making the same mistake in future. What most people don't know is that Sudoku is not a mathematical game. It requires absolutely no arithmetic skills, but it does require logical reasoning. As you learn to arrange the numbers correctly your logical thinking skills improve.

Based on your understanding of the passage, answer ANY FIVE questions from the six given below: 1*5=5 marks

- i) When was the first real Sudoku published?
- ii) Where did it gain first worldwide popularity?
- iii) Our duties towards our----- should go on simultaneously.
- iv) Which skill is developed playing Sudoku?
- v) The game of Sudoku can best be played in ----- state.
- vi) The number in the boxes range from-----.

Q2-Read the passage given below:

The most characteristic feature of spiders is their ability to produce silken threads. Spiders normally have six finger-like silk glands, called 'spinnerets' located beneath their abdomen. To spin a web, the spider squeezes the silk out of its body through two small holes. The liquid silk is thicker than water and dries into a fine thread as soon as it comes in contact with air. Spider silk is much stronger than steel and resists breakage because of its elasticity. It can stretch up to 140 per cent of its original length. The diameter of these silken threads is about 10,000 of an inch. Spiders use this silk to make webs to trap their prey. The egg sacs of some spiders are also made of silk which pretreats the unborn progeny. Sometimes the spider can also use its silk as a safety feature. A certain species of spider 'phidippus apacheanecs' trails a safety line of fine silk as it jumps. It uses the silk line to recover if it misses its target. The silk of 'Naphils Spider' is the strongest natural fibre known.

The spinning of webs is a remarkable example of instinctive behaviour. A spider does not have to learn how to make a web, although spinning itself can be adopted to unique circumstances. For example, 'orb' webs are circular in shape and take an hour to build. Funnel spiders spin a net-like entrance to their homes, which helps to trap food. Similarly, trap door spiders dig their homes and spin a trap door out of their silk for trapping insects.

As integral components of our biosphere, spiders have an intrinsic existence value. They are efficient predators that play an important role in controlling the pests of cotton. They are also a source of food for other creatures, such as birds and wasps. Thus, the presence of spiders is an ecological indicator signalling the health of natural ecosystem.

| | |
|--|--|
| <p>Black and Yellow Garden Spider</p> | <p>Fisher Spider</p> |
| <p>Typically found in fields and gardens during daytime.</p> | <p>Do not need webs to catch prey, track down insects and pounce on them.</p> |
|  |  |

| | |
|--|---|
|  |  |
| <p>Common House Spider</p> <p>Found in houses, sheds and garages; Typically weave their webs in ceilings and window corners</p> | <p>Woodlouse Hunting Spider</p> <p>Spotted outside in leaves, wood or rock pill bugs</p> |

| | |
|--|--|
| |  <p style="text-align: center;">Grass Spiders</p> <p>Webs are weaved in grass, visible in morning dew.</p> |
|--|--|

Based on your understanding of the passage, answer ANY FIVE questions from the six given below:

1*5=5 marks

- i) Where are Spinnerets located in a spider?
- ii) What important role do spiders play as a predator?
- iii) Why are spiders important for birds and wasps?
- iv) Which spider does not weave a web to catch its prey?
- v) Where can the woodlouse hunting spider be spotted?
- vi) Which spider's web is visible in morning dew?

SECTION B - WRITING AND GRAMMAR (10 marks)

Q3-Attempt ANY ONE from i and ii.
marks

5

i) Write a short descriptive paragraph on the famous Indian scientist Sir CV Raman in 100-120 words on the basis of the following inputs:

Born on 7 November 1888 in Madras—Physician by profession—

worked in the field of light scattering—the discovery is known as Raman Effect—won Nobel Prize in 1930 for his discovery—elected Fellow of the Royal Society' in 1924—in 1954 India honoured him with its highest civilian award 'Bharat Ratna'—breathed his last on 21 . November 1970.

ii) Write a story in about 100-120 words with the following beginning:

My mother asked me to go to the market in the evening. Initially I wanted to avoid but then thinking she needed milk for my little brother, I left home

reluctantly. I reached the market and was about to pay money for the milk, when suddenly I saw a.....

Q4- The following paragraph has not been edited. There is one error in each line. Identify the error and write its correction against the correct blank number. Remember to underline the correction. The first one has been done for you.

(1*3=3marks)

| Correction | Error |

Q5-Read the conversation between mother and father and complete the passage that follows:

Mother: Our son picks up money wherever I hide it.

Father: Hide it in his books. He will never find it there.

A worried mother told her son's father that (a)wherever she hid it. Her husband advised her (b) because he would never find it there.

SECTION C- LITERATURE (20 marks)

Q 6-. Answer ANY SIX questions in 30-40 words each.

(2*6=12 marks)

- i) " I rather pride myself on my packing". Why did the author think so?
- ii) How did the villagers make the helicopters drop regular supplies of food?
- iii) Why did Sergei feel that he had seen the beggar before?
- iv) When and how did the author get back his cat?
- v) Why is the bark bleeding? What will happen when it heals?
- vi) What was Maria's reaction to the humiliation and insults?

vii) Which tricks had Bruno or Baba learnt?

Q7- Answer ANY TWO of the following in about 120 words each: (4*2=8 marks)

i) In the poem 'The Snake Trying' what is the snake trying? Is he successful? What does the poet tell us about him?

ii) How did Santosh develop an interest in mountaineering? What were her major achievements?

iv) Give the character sketch of Sue?
